

# Conquer risk & compliance challenges

Lexis® GRC

## Governance, risk and compliance

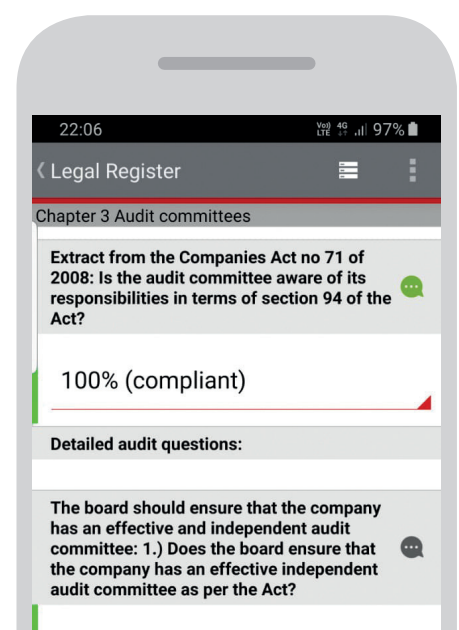

Governance, risk and compliance management is becoming increasingly complicated, and recent lapses have shown how the future of even well-respected organisations can be jeopardised. But what if you had systems in place to manage the process with ease?

How much simpler would your life be if you knew the precise changes to legislation that impact your business? And the exact action you needed to take?

How would your working day change if you had a fully customisable, management dashboard with interactive drill-down to identify areas that are most important to you and your business?

LexisNexis provides world-class regulatory content with a comprehensive, but easy to use software system - a vital management tool for an integrated solution giving you everything you need to minimise your risk.

Keeping abreast of your evolving governance, risk and compliance requirements is one challenge; responding to those requirements to effectively manage risk is quite another.

**Lexis® GRC maximises opportunities through expert enterprise management of risk, compliance and mitigation.**

*We'll conduct an individualised needs analysis for your business and identify the tools you need to deal with the challenges you face. Get only what you need now, and scale up as your business grows. With Lexis® GRC you can have an integrated solution that grows with you.*
